"There's machinery in the butterfly;  
 There's a mainspring to the bee;  
 There's hydraulics to a daisy,  
 And contraptions to a tree.  
 "If we could see the birds  
 That makes the chirping sound  
 With x-ray, scientific eyes,  
 We could see the wheels go round."

And I hope all men  
 Who think like this  
 Will soon lie  
 Underground.
